

Safety Days Workshop

Turn your safety days into concrete and educational experiences.

These workshops maximize the impact of awareness initiatives and foster collective understanding of workplace safety and prevention challenges.

What if your Safety Days became more engaging, hands-on, and impactful ?

WHY DO THESE WORKSHOPS WORK ?

Because participants **become active in their own prevention** by practicing gestures and postures. With KIMEA and immediate visual feedback, they can see the impact of their actions and better understand risky situations.

Because risks and solutions **are measured with concrete data**, allowing practices to be compared before and after, and making prevention actions clearer and more effective.

Because the playful approach **encourages engagement, retention, and dialogue**, while providing solutions that can be applied directly at the workstation.

Get ahead with your prevention initiatives !

Make prevention engaging and educational with KIMEA

Short, dynamic, and immersive workshops to raise awareness of MSD & psychosocial risks differently, with real-time visualization thanks to KIMEA.

1- ZERO-RISK ESCAPE GAME

« *Zero MSD Mission* » – **Take on ergonomic challenges to unlock a prevention program.**

- > **Format** : participants solve ergonomic puzzles and challenges, gradually building a prevention program.
- > Team-based activity lasting 25 to 45 minutes.

An immersive experience combining ergonomic puzzles and hands-on action, designed to generate practical solutions **validated in real time with KIMEA.**

2- THE COLLECTIVE PERFORMANCE RELAY

« *Collective Performance & Controlled Movements* » – **Proof that prevention boosts performance.**

- > **Format** : A course of key movements to complete as a team (lifting, pulling, reaching...)
- > 1 hour of teamwork and collective strategy.

A collaborative course where each team **improves their gestures and postures**, with scores measured before and after thanks to KIMEA.

3- THE PREVENTION GOOSE GAME

« *Move Forward by Understanding Risks* » – **A collective learning experience with an educational approach designed to enrich team meetings and strengthen connections.**

- > **Format** : progress across the game board by answering prevention-related questions and performing key movements.
- > A short, dynamic format accessible to everyone.

Through shared real-life experiences, participants move forward together **to identify risks, foster team spirit, and correct movements.**

4- THE RISKY MOVEMENTS CLUEDO

« *The Risky Movements Investigation* » – **Find the culprit : the movement, the workstation, or the organization ?**

- > **Format** : Investigate a risky situation and identify the movement, its cause, and the solution using the clues provided by KIMEA.
- > 35-45 minutes, with roles distributed within each team.

A collective investigation to identify unsafe movements, understand their causes, and test corrective actions with the support of KIMEA.
